## 2024 Annual Military Equipment Report

The following list of military equipment (as defined in California Government Code §7070) includes equipment that has been purchased, owned, or used by the San Mateo County Sheriff's Office. This list also includes such equipment for which the purchase and/or use may be sought.

The San Mateo County Board of Supervisors will use the Annual Military Equipment Report as a mechanism to ensure the San Mateo Sheriff's Office compliance, and to help it determine whether to approve, revise, or revoke components of the Military Equipment Use Policy for the subsequent year.

While Government Code section §7070 defines what constitutes "military equipment" for the purposes of this policy, most of the items listed herein have been procured directly from private retailers, dealers or manufacturers. Few, if any, were obtained through the Department of Defense Law Enforcement Support Office (LESO) program. Furthermore, numerous items deemed "military equipment" by Government Code section §7070 are substantially similar or, in some cases, identical, to items available for civilian purchase. It should also be noted that some quantities and prices have been estimated.

Pursuant to California Government Code §7070(d)(7), members of the public may register complaints or concerns or submit questions about the use of each specific type of Military Equipment in this policy to the San Mateo County Sheriff's Office Professional Standards Bureau by any of the following means:

- Via email to: [SHERIFFS\\_PSB@SMCGOV.ORG](mailto:SHERIFFS_PSB@SMCGOV.ORG)
- Via phone call to: (650) 363-4395
- Via mail sent to: San Mateo County Sheriff's Office  
Professional Standards Bureau  
Attn: Captain Brian Philip - Military Equipment Coordinator  
400 County Center

## Section One: Qualifying Equipment Owned/Utilized by the San Mateo County Sheriff's Office

|   |  |                              |
|---|--|------------------------------|
| <b>Definitive Section:</b>  | CA Gov't Code §7070(c)(1)                                  |                              |
| <b>Equipment Type:</b>  | <i>Unmanned, remotely piloted, powered ground vehicles</i> |                              |
| <b>Common Name:</b>   | Bomb Squad Robot   |                              |
| <b>Quantity Owned/Sought:</b>   | 3 owned  | <b>Lifespan:</b> 15-20 years |
| <b>Equipment Capabilities:</b> Bomb Squad Robots are capable of being remotely navigated to provide scene information and intelligence in the form of audio/video/data transmitted to operators. Robots are capable of remotely manipulating and examining items. Robots are also capable of remotely deploying disrupting tools.   |  |                              |
| <b>Manufacturer Product Description:</b>  |  |                              |
| <p>Remotec Andros F5 – A robotic tracked vehicle, equipped with cameras and microphone. The robot is equipped with an arm capable of manipulating objects. The robot can be configured to carry remote disrupting tools.</p> <p>Qinetix Talon – A robotic tracked vehicle, equipped with chemical, biological, radiological sensors, cameras and microphones. The robot is equipped with an arm capable of manipulating objects. The robot can be configured to carry remote disrupting tools.</p> <p>Qinetix Bobcat – A robotic tracked vehicle, equipped with cameras and microphone. The robot can be equipped with a standard bucket, gripper claw or fork-lift attachment. The robot can be configured to carry remote disrupting tools.</p> |  |                              |
| <b>Fiscal Impacts:</b> The initial cost of the equipment, licensing, software and training was approximately \$750,000. Ongoing cost associated with operations and maintenance is estimated to be approximately \$10,000 a year. These funds come from the Sheriff's Office budget.  |  |                              |
| <b>Purpose/Authorized Uses:</b> To enhance the safety of potentially dangerous situations by providing first responders with the ability to remotely examine suspicious / dangerous items and manipulate or disrupt them prior to, or in lieu of, sending in personnel.   |  |                              |
| <b>Uses in Prior Year:</b> Any or all of these assets were deployed during (60) different Bomb Squad activations during the prior year. These activations included protective sweeps and disposals of destructive devices and/or materials.   |  |                              |
| <b>Legal/Procedural Rules Governing Use:</b> The use of unmanned, remotely piloted, powered ground vehicles potentially involves privacy considerations. Absent a warrant or exigent circumstances, operators and observers shall adhere to all applicable privacy laws and shall not intentionally record or transmit images of any location where a person would have a reasonable expectation of privacy (e.g., residence, yard, enclosure).   |  |                              |
| <p>San Mateo County Sheriff's Office Policies including:</p> <ul style="list-style-type: none"> <li>Lexipol 800 – Property and Evidence</li> <li>Lexipol 407 – Response to Bomb Calls</li> </ul>  |  |                              |
| <b>Training Required:</b> Operators of these robots are all currently certified Hazardous Device Technicians. As such Operators regularly train monthly in the use of the robots.   |  |                              |

| <b>Definitive Section:</b>  | CA Gov't Code §7070(c)(1) – Military Equipment Use |  |
| <b>Equipment Type:</b>  | Unmanned Aircraft Systems (UAS/Drones)             |  |
| <b>Quantity Owned:</b> (2) M300s owned, (3) Mavic 2 Enterprise Advanced owned, (5) Mavic 2 Enterprise Dual owned, (1) unserviceable/damaged Mavic 2 Enterprise Dual, (4) DJI Mavic 3 Enterprise/Thermal, (2) DJI Avata<br><b>Sought:</b> (4) DJI Mavic 3 Enterprise/Thermal, (2) DJI M30T, (2) DJI Mini 4, (2) DJI Avata  | <b>Lifespan:</b> Approximately 5 years             |  |
| <b>Equipment Capabilities:</b> Remotely piloted aerial vehicles capable of providing live and recorded video images captured from aerial positions, including images enhanced by Forward Looking Infrared (FLIR) and optical zoom lenses.   |  |  |
| <b>Manufacturer Product Description:</b>  |  |  |
| <p><u>Matrice 300 RTK:</u> The DJI Matrice 300 RTK is a powerful, industrial-grade flight platform with world-class agility and speed, two barometers, and redundant IMUs for maximum reliability, and new smart flight features that make capturing complex shots easy. The aircraft's visual sensors enable enhanced hovering precision even when flying indoors or in environments where GNSS is unavailable. The drone's new airframe design gives it an IP45 Ingress Protection Rating, in accordance with the global IEC 60529 standard. The M300 RTK's mechanical design, along with quick release landing gears and mounted folding arms, makes it easy to transport, store, and prepare for flight. 15km Max Transmission, 55 minutes of flight time, six directional sensing and positioning sensors, hot-swappable battery, -20°C to 50°C operating temperature, with a Zenmuse H20 series camera (200x zoom, 640p thermal camera).</p> <p><u>DJI Mavic 2 Enterprise Dual/Advanced &amp; DJI Mavic 3 Enterprise/Thermal:</u> The DJI Mavic 2 Enterprise series features omnidirectional Vision Systems and Infrared Sensing Systems and comes with a fully stabilized 3-axis gimbal camera with an equivalent 24-48 mm2x optical enterprise lens capable of shooting 4k videos and 12-megapixel photos that support up to 6x FHD zoom. DJI signature technologies such as Obstacle Sensing and the Advanced Pilot Assistance System, help you capture complex shots effortlessly. Additional features like the built in AirSense make you aware of your surrounding airspace, and password protection helps you maintain secure access to your aircraft and protect your data. The Mavic 2 Enterprise also has attachable modular accessories like the M2E spotlight, M2E Beacon, and M2E Speaker that are purpose built for various applications. The Mavic 2 Enterprise boasts a maximum flight speed of 44.7 mph and a maximum flight time of 31 minutes. Both the Dual and Advanced variants are equipped with thermal cameras, which enable first responders to see thermal gradient on the screen. The Advanced version is equipped with a high-resolution thermal camera (640p), and the Dual is equipped with a low-resolution thermal camera (160p).</p> <p>The 2023 model year Mavic 3 is the manufacturer's replacement for the older Mavic 2 aircraft (no longer available for purchase). The Mavic 3 features a newer wide-angle camera with 56x hybrid zoom, a high-resolution thermal camera (640p) and a 4/3 CMOS sensor on the mapping version for high resolution photo mapping.</p> <p><u>DJI Avata:</u> The DJI Avata is a first-person view drone capable of indoor flight. The model features a 4k</p> |  |  |

high resolution camera system, and up to 23 minutes of flight. The aircraft is equipped with downward obstacle sensing system which allows it to perform low altitude or indoor flight. The Avata is built with a durable frame that reduces the risk of damage to the drone. It also has built in propeller guards which allow it to bounce back and continue flying if in contact with an object. The Avata has HD low latency transmission and emergency brake. This compact model is extremely portable and can fly in very confined spaces, which is suited for search and rescue missions and tactical operations within structures.

**DJI M30T:** The DJI M30T is a versatile drone featuring an integrated payload with a 48MP wide camera, a 12MP tele zoom camera, and a thermal camera for diverse operational needs. It offers advanced flight performance, easily handling challenging weather with an IP55 rating, and ensures safety with comprehensive sensors and collision avoidance system. Its intuitive DJI RC Plus remote control enhances mission efficiency. The DJI M30T has a 41-minute flight time.

**DJI Mini 4:** The DJI Mini 4 is a lightweight compact drone capable of indoor flight. This model features a 4K high resolution camera system, and up to 45 minutes of flight with an optional larger battery. The aircraft is equipped with omnidirectional obstacle sensing and the controller includes a video screen for the pilot to use for flight control and camera field of view. This model is extremely portable and can fly in confined spaces, which is suited for search and rescue missions and tactical operations within structures.

**Fiscal Impacts:** The initial costs of equipment, licensing, software and training was approximately, \$70,000 in 2020, which was funded with Equitable Sharing Asset Forfeiture Funds. Ongoing cost associated with UAS operation and maintenance is estimated to be approximately \$15,000 per year. New aircraft purchases for 2024 are expected to be approximately \$80,000 for replacement of aging fleet and the addition of smaller flight indoor capable aircraft.

**Purpose/Authorized Uses:** UAS/Drones may be utilized to enhance the Department’s mission of protecting lives and property when other means and resources are not available or are less effective.

Uses may include but are not limited to:

Search and rescue missions, investigative scenes for video/photograph documentation, Hazardous Materials (hazmat) response, public safety and life preservation missions (i.e., barricaded suspects, hostage situations, active shooters, high-risk tactical operations), disaster response (i.e., flood, earthquake, fire), suspected explosive devices, pursuant to a warrant (search or arrest), special events, outside public agency assists and mutual aid support when the underlying mission meets the uses outlined in agency policy, training flights as required to meet FAA and Sheriff’s Office certification standards, searching for wanted suspects, and demonstrations to the public (i.e. flight demonstrations to the public)

**Uses in Prior Year:** Unmanned Aerial Systems were deployed **(49)** times in the past year, including search and rescue missions, scene mapping, suspect search and apprehension missions, community events, and training evolutions.

**Legal/Procedural Rules Governing Use:** Any use of a UAS will be in strict accordance with constitutional and privacy rights and Federal Aviation Administration (FAA) Part 107 regulations. All flights conducted in public (other than training and demonstrations) will be reported to the FAA monthly per the requirements of the agency COAs on file. The use of the UAS potentially involves privacy considerations. Absent a warrant or exigent circumstances, operators and observers shall adhere to FAA altitude regulations and shall not intentionally record or transmit images of any location where a person would have a reasonable expectation of privacy (e.g., residence, yard,

enclosure). Operators and observers shall take reasonable precautions to avoid inadvertently recording or transmitting images of areas where there is a reasonable expectation of privacy. Reasonable precautions can include, for example, deactivating or turning imaging devices away from such areas or persons during UAS operations.

UAS recordings of the following should be retained for a minimum of two years (Penal Code 832.18):

- Incidents involving use of force by a deputy
- Officer-involved shootings
- Incidents that lead to the detention or arrest of an individual
- Recordings relevant to a formal or informal complaint against a deputy of the San Mateo County Sheriff's Office

Recordings containing evidence that may be relevant to a criminal prosecution should be retained for any additional period required by law for other evidence relevant to a criminal prosecution (Penal Code § 832.18). All other recordings should be retained for a period consistent with the requirements of the agency's records retention schedule.

All recordings made by members on any office-issued device at any time, and any recording made while acting in an official capacity for this office, regardless of ownership of the device it was made on, shall remain the property of the Sheriff's Office. Members shall have no expectation of privacy or ownership interest in the content of these recordings.

**Training Required:** Prior to piloting any UAS/Drone staff members shall acquire an FAA Remote Pilot Certificate under the FAA's Small UAS Rule (Part 107). Before a member can be authorized to conduct flight operations as a UAS operator, they must complete at least eight hours of flight training with UAS instructors to show proficiency of the flight training exercise and the airframe. This must be accomplished to show their ability and knowledge of the UAS. To maintain a level of proficiency with the UAS, operators shall be required to attend regular training. Training will be coordinated through the Program Coordinator. All members in the assignment shall maintain proficiency in their piloting skills. Members who do not have any documented training or flight time within a span of six months will need to demonstrate proficiency before being a pilot during a deployment or exercise.

All members will have a training file on record that detail their training history. All deployments or exercises will be documented and count towards a member's training.

| <b>Definitive Section:</b>  | CA Gov't Code §7070(c)(1)              |
| <b>Equipment Type:</b>  | CTS CS Gas and Defense Tech CS liquid  |
| <b>Quantity Owned/Sought: 134 owned</b>   | <b>Lifespan:</b> Approximately 5 years |
| <b>Equipment Capabilities:</b> All three CS gas types can be deployed by ARV gas spike, burn box/tomahawk, 37mm launcher, or hand thrown.   |  |
| <b>Manufacturer Product Description:</b>  |  |
| <p>CTS CS Gas - 5230B – Pyrotechnic grenade designed for indoor use delivering a maximum amount of irritant smoke throughout multiple rooms with minimal risk of fire.</p> <p>CTS CS Gas - 8230 – The smallest diameter burning grenade that discharges a high volume of smoke and chemical agent through multiple emission ports. Specifically for outdoor use and it should not be deployed on rooftops, in crawl spaces or indoors due to fire producing capability. Can be hand thrown or launched.</p> <p>CTS CS Gas - 4330 – 40mm CS Liquid Barricade, Spin Stabilized, 4.1” Long, Liquid CS filled projectile penetrates intermediate barriers and delivers irritant agents into an adjacent room.</p> <p>Defense Tech CS liquid - The Ferret® 37 mm CS Round is a frangible projectile filled with chemical agent. Upon impacting the barrier, the nose cone ruptures and instantaneously delivers the .16 oz. agent payload inside a structure. The munitions is 4.8 in. by 1.5 in. and travels at 650fps within an effective range of 50 yards.</p> |  |
| <b>Purpose/Authorized Uses:</b> Chemical agents may be deployed to incapacitate dangerous or hostile subjects, unruly persons, or to overcome resistance to lawful law enforcement actions. SWAT may tactically deploy chemical agents to induce suspect(s) movement or deny or restrict movement and access to areas.  |  |
| <b>Uses in Prior Year: 0 deployments</b>  |  |
| <b>Fiscal Impacts:</b> The initial costs of equipment is approximately \$40 per device which was purchased though the SMSO SWAT Budget. Ongoing cost associated with the CTS CS Gas devices and Def Tech CS Liquid Ferret rounds during operation and training is estimated to be approximately \$3600 per year.  |  |
| <b>Legal/Procedural Rules Governing Use:</b> The use governing the deployment of diversionary device is located in the SMC Sheriff's Office SWAT/CNU Procedures Section : 2-11c (Use of Chemical Agents)  |  |
| <p>San Mateo County Sheriff's Office Policies including:</p> <p>Lexipol Policy 300 - Use of Force, Conducted Energy Device (Taser), Control Devices and Techniques</p> <p>Lexipol Policy 306 – Firearms</p> <p>Lexipol Policy 426 – First Amendment Assemblies</p>  |  |
| <b>Training Required:</b> Team certified instructors shall complete a POST certified Chemical Agent Instructor Course. Each team member shall be instructed by the POST certified trainers on the use, deployment, and storage of the chemical agents.  |  |

|  |  |

| <b>Definitive Section:</b>   | CA Gov't Code §7070(c)(1)                            |
| <b>Equipment Type:</b>   | 40mm Less Lethal Launchers, 37mm Liquid Gas Launcher |
| <b>Quantity Owned/Sought:</b> 4 owned  | <b>Lifespan:</b> Indefinite                          |
| <b>Equipment Capabilities:</b> The 40mm Less Lethal Launcher is capable of firing 40mm Kinetic Energy Munitions, which are essentially rubber projectiles and Liquid CS Gas round. The 37mm Less Lethal Launcher is capable of firing 37mm Liquid Ferret CS Gas round.   |  |
| <p><b>Manufacturer Product Description:</b><br/> <b>Penn Arms 40MM launcher</b> are manufactured using 4140 hardened steel, 6061-T6 mil-spec anodized aluminum and DuPont super tough glass filled nylon. These launchers are light weight, versatile and used worldwide by police and corrections officers. The 40MM launcher family of products is available in single-shot, spring-advance multi, and pump-advance multi-versions.</p> <p><b>Federal M201-Z Gas Riot Gun (37x122mm)</b> The Federal M201-Z is an upgrade to the Federal L-5 grenade launcher. It's a simple, single-shot, break-open smoothbore launcher intended to fire non-lethal tear gas grenades.</p> <p><b>Defense Technology 37mm Single Shot Launcher</b> Manufactured exclusively for Defense Technology, launcher that features a fixed rear stock and an Integrated Front Grip (IFG). The ambidextrous Lateral Sling Mount (LSM) and QD mounting systems allow both a single and two point sling attachment. It will fire standard 37mm less lethal ammunition,</p> |  |
| <b>Purpose/Authorized Uses:</b> The 40mm and 37mm Less Lethal Launchers and Kinetic Energy Munitions are intended for use as a less lethal use of force option.  |  |
| <b>Uses in Prior Year:</b> 0 deployments   |  |
| <b>Fiscal Impacts:</b> The initial cost of this equipment was approximately \$4,000. The ongoing costs for munitions will vary and maintenance is conducted by departmental staff.   |  |
| <p><b>Legal/Procedural Rules Governing Use:</b> All applicable State, Federal and Local laws governing police use of force. The use governing the deployment of chemical agents and less lethal munitions is located in the SMC Sheriff's Office SWAT/CNU Procedures Section : 2-11c (Use of Chemical Agents) and 2-11d (Use of Less Lethal Munitions)</p> <p>San Mateo County Sheriff's Office Policies including:<br/> Lexipol Policy 300 - Use of Force, Conducted Energy Device (Taser), Control Devices and Techniques<br/> Lexipol Policy 306 – Firearms<br/> Lexipol Policy 426 – First Amendment Assemblies</p>  |  |

**Training Required:** Team certified instructors shall complete a POST certified Chemical Agent or Less Lethal Instructor Course. Each team member shall be instructed by the POST certified trainers on the use, deployment, and storage of the 40mm and 37mm launchers.

**Other Notes:** None.

|---|--|-----------------------------|
| <b>Definitive Section:</b>  | CA Gov't Code §7070(c)(3)  |                             |
| <b>Equipment Type:</b>  | <i>Wheeled vehicles that have a breaching apparatus attached</i> |                             |
| <b>Common Name:</b>   | Lenco Bearcat  |                             |
| <b>Quantity Owned/Sought:</b>   | 1 owned  | <b>Lifespan:</b> 20+ years. |
| <b>Equipment Capabilities:</b> To be used in response to critical incidents to enhance officer and community safety, improve scene containment and stabilization, and assist in resolving critical incidents.   |  |                             |
| <b>Manufacturer Product Description:</b><br>The ARV is designed to provide ballistic protection during tactical events (designed to withstand multiple bullet strikes from small arms fire as well as low level explosions). Equipped with nuclear/radiological detection devices, self-contained breathing apparatus, explosive gas detection devices, and thermal imaging camera. Equipped with emergency lights/siren and a public address system. Common uses for the ARV include citizen and officer rescues, evacuations, and the deployment of officers and chemical agents. The ARV is currently deployed at large events in San Mateo County including parades, and festivals. The ARV is a regional mutual-aid asset that has been requested and deployed to allied agencies in San Mateo County. The ARV responded to high profile events and incidents where local officers were injured/killed in the line of duty |  |                             |
| <b>Fiscal Impacts:</b> Initial cost: \$300,000.00 Annual maintenance cost of approximately \$2,500. These funds will come from the Sheriff's Office budget.   |  |                             |
| <b>Proposed/Authorized Uses:</b> The use of armored vehicle shall only be authorized by a watch commander or SWAT commander, based on the specific circumstances of a given critical incident. Armored vehicles shall be used only by officers trained in their deployment and in a manner consistent with Department policy and training. The driver of the vehicle shall have a valid California driver license.  |  |                             |

| <b>Manufacturer Product Description:</b>  |  |                              |
| <p><b>Remington Model 870 Shot Gun:</b> The Remington Model 870 is a U.S. made pump-action shotgun. It is widely used by law enforcement as a defensive weapon and by the public for target shooting, hunting and self-defense.</p> <p>The Model 870 features a bottom-loading, side ejecting receiver, tubular magazine under the barrel, dual action bars, internal hammer, and a bolt which locks into and extension in the barrel. A pump action is a repeating firearm action that is operated manually by moving a sliding handguard on the gun's fore stock. When shooting, the sliding forend is pulled reward to eject any expended cartridge and to cock the hammer/striker, and then pushed forward to load a new cartridge into the chamber. This action is required for each cartridge to be fired.</p> <p>The Model 870 is capable of firing any 12-gauge shotgun cartridge; however, the San Mateo County SWAT Team uses this platform exclusively to fire a Less Lethal Drag Stabilize Bean Bag rounds. The shotgun had been visibly marked with bright orange furniture to commonly signify it has been converted from a lethal platform to a Non-Lethal platform.</p> |  |                              |
| <b>Fiscal Impacts:</b> The initial cost of this equipment was approximately \$1000. The ongoing costs for munitions will vary and maintenance is conducted by departmental staff.   |  |                              |
| <b>Purpose/Authorized Uses:</b> The Remington 870 Shotgun and its Drag Stabilized Bean Bag Munitions are intended for use as a less lethal use of force option.   |  |                              |
| <p>The SWAT Team permits the use of less lethal platforms to assist with the de-escalation of potentially violent confrontations. Only personnel who have successfully completed training approved by the SWAT Commander in the proper use and deployment of less lethal impact weapons shall be authorized to use them during actual operations.</p>   |  |                              |
